

## Assignment #8. Full website (Interactive Website)

Student: Zhumakhan Aralym  
Group: MT-2403

### Objective:

The goal of this assignment is to apply all the knowledge gained in previous assignments to create a fully functional, multi-page interactive website. Students will demonstrate skills in HTML, CSS, Bootstrap, JavaScript, jQuery, and responsive design principles. (this assignment is the draft version of your final project).

## Main page

This webpage is the **Home Page** of the “Furever Home” pet adoption site. It has a responsive navigation bar created with **Bootstrap**, linking to pages like Home, About Us, Pets, and Contact. The page includes a welcoming paragraph and an “**Adopt A Pet**” button that fade in smoothly using **jQuery animations**. A soft **background image** creates a warm and emotional atmosphere. The button is styled with **custom CSS** for hover effects and rounded edges, making it look inviting. The page ends with a simple footer, creating a clean and friendly first impression for visitors.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Furever Home</title>
  <link rel="stylesheet" href="style.css">

  <link href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css"
rel="stylesheet">
  <style>

.btn {
  padding: 12px 25px;
  font-size: 22px;
  background-color: rgb(249, 253, 165);
```

## About Us page

**Furever Home**

Home    About Us    Pets    Success stories    Contact

### Who We Are

We are Furever Home, a warm-hearted pet adoption organization that connects loving families with homeless animals. Our team is made up of passionate volunteers, animal lovers, and community partners who believe that every pet deserves safety, care, and love. We are not just a shelter — we are a bridge between animals in need and people ready to open their hearts and homes.

**What We Do**  
We rescue, care for, and prepare pets for adoption by providing medical support, food, and safe shelter.

**Our Goal**  
Our mission is to ensure every pet finds a safe, happy, and permanent home.

**Our Impact**  
Over 250 animals have already found their forever families through our shelter.

Copyright @2025. All rights reserved

This is the **About Us** page of the “Furever Home” website. It introduces the organization and explains its mission, goals, and achievements. The page uses **Bootstrap** for layout and responsive design, making it look good on all devices. The background image, styled with **CSS blend modes**, gives a warm and soft tone that matches the shelter’s caring message. The content is divided into two main sections — the left side contains an introduction about who they are, and the right side presents key points like “What We Do,” “Our Goal,” and “Our Impact,” each paired with an icon.

## Pets page

The screenshot shows the 'Furever Home' website's pets page. At the top, there's a navigation bar with links for Home, About Us, Pets, Success stories, and Contact. Below the navigation, a heading says 'These lovely souls are waiting for you'. Three cards are displayed, each featuring a photo of a pet, its name, and a 'View More' button. The pets shown are a puppy named Loki, a dog named Oreo, and a cat named Luna.

Animal	Available	Adopted

**Pet Adoption Statistics**

This is the **Pets** page of the “Furever Home” website. It presents animals currently available for adoption with photos, names, and a “View More” button for each. The layout uses **Bootstrap** for responsive navigation and **CSS Flexbox** for neatly aligning pet cards. Each card features a smooth hover effect that enlarges the pet image slightly to draw attention. Below the gallery, there’s a section showing **Pet Adoption Statistics**, which users can reveal or hide interactively by clicking the title — this effect is handled using a simple **jQuery slide toggle**. The design maintains a friendly and soft aesthetic with rounded corners, pastel colors, and light shadows, making the page welcoming and easy to navigate for visitors.

## Success Stories page

## Success Stories

Copyright @ 2025. All rights reserved.

This **Success Stories** page of the “Furever Home” website highlights heartwarming adoption stories of rescued animals. It features a grid layout displaying photos of pets like Mochi, Finn, Sam, Didi, and Max, each with a button to read their short story. When users click the button, a **modal window** appears, showing a brief description of the pet’s journey from rescue to a loving home. The **jQuery animation** gradually fades in the pet photos for a soft visual effect, while the modal interaction provides an engaging way to share each success story. The design uses **Bootstrap** for structure and **CSS Grid** for layout, maintaining a cheerful and cozy tone with soft colors, rounded edges, and smooth transitions that match the website’s warm theme.

This **Contact** page of the “Furever Home” website allows visitors to easily reach out and connect with the organization. It’s divided into three main sections: **contact information**, **map**, and a **message form**. The left column displays the shelter’s location in *Astana, Kazakhstan*, along with a phone number and email address, each represented with simple icons for clarity. The middle section features a **map image**, visually showing where the shelter is located. On the right, a **Bootstrap-based contact form** lets users send messages by entering their name, email, and an optional message. Built-in **form validation** ensures users provide valid information, with real-time feedback messages like “Looks good!” or “Please enter a valid email.” The clean **CSS grid layout** evenly spaces the three sections, giving a professional and organized appearance, while the minimal black-and-white color scheme keeps the design modern and accessible.

## Conclusion

In conclusion, the **Furever Home** website is a warm, interactive, and user-friendly platform designed to promote pet adoption and connect loving animals with caring owners. Each page serves a unique purpose — the **Home page** welcomes visitors and inspires them to adopt, the **Pets page** showcases adorable animals available for adoption, the **Success Stories page** shares heartwarming stories of rescued pets, and the **Contact page** provides clear ways to get in touch. With its responsive design, engaging visuals, smooth animations, and well-structured layout, the website effectively combines functionality and emotion, encouraging visitors to take action and give every pet a chance for a forever home.
